

ASHOK SRINIVASAN G

Senior Software Engineer

EXPERIENCE (3 years)

Capgemini, Hyderabad - Senior Software Engineer

JUNE 2019 - PRESENT

AXA Homecare

To enable users to avail professional home care services in Belgium, developed an exclusive Single Page Customer centric platform using Angularjs and Nodejs, that allows the customers to select professionals, compare offers, provide reviews, plan and carry out the work with the team of their choice.

- Developed a new voucher enhancement over a span of 11 days which produced revenue of €2,500 for the organisation
- Fixed several high-level security vulnerabilities that streamlined the application by 15%
- Coordinated cloud migration activity that reduced the yearly cost by 20% for the client
- Introduced session management and idle time detection
- Upgraded application to support multi-languages
- Organized 4 knowledge transfer sessions over a course of 3 months for new team members

Domelec

To manage the Insurance claims for the Electrical appliance damage in France, developed an application embedded on an Iframe using Reactjs and Nodejs, that allows a user to provide details of the damaged appliance with simple steps

- Responsible for managing a team of 3 as a tech lead
- Implemented Azure Service Bus for triggering emails
- Supervised the migration to AzurePaas
- Coordinated closely with 2 different team leads to integrate our applications and implemented a successful Go-Live activity

Capgemini, Hyderabad - Software Engineer

JUNE 2018 - JUNE 2019

MARC - Medical Assessment Records & Claims

To manage the medical insurance claim procedure in South East Asia, developed a scalable website application based on MVC architecture using Java, that enables a Customer to handle the policy details with ease.

- Identified and fixed 229 bugs and 27 high level security vulnerabilities boosting client relations
- Indexed database queries that reduced the application loading time by 30%
- Worked closely with an Agile team, over 14 sprints to deliver a robust medical application
- Introduced report generation using Apache POI
